

Shows on 28-29 November 2020

CANCELLED

Dear friends of cats,

One of the main activities of any self-respecting felinological organization is the regular organization of cat shows. These give opportunities for participation for the registered catteries and owners of show cats, as well as to the lovers of the purring God's creatures. NFFE has proven with over 25 years of experience as a successful organizer of cat shows, that meeting cats with their lovers is the best basis for mutual acquaintance, understanding and even love "addiction".

Despite of this, the fact is, however, that the unprecedented COVID-19 pandemic present is forcing us to make painful decisions. Driven by concern for the health of all, in connection with the unclear dynamically changing epidemiological situation and the practical impossibility to organize and ensure safe contacts between exhibitors, stewards, judges and the public, NFFE declares the planned exhibition for 28-29 November 2020 cancelled.

For **2021** we will additionally announce the dates for exhibitions, according to the forecasts regarding the expected development of the situation.

Thank you for the understanding to our members, fans and cat lovers.
